Tejas Chaudhari

Bachelor of Engineering in Computer Engineering
Pune Institute of Computer Technology (PICT)
Email: tejasgchaudhari@gmail.com — Phone: 8767830052 — linkedin.com/in/tejas-chaudhari-09630b349

SUMMARY

Final-year Computer Engineering student at PICT with hands-on production experience in full-stack web development. Experienced in React.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, REST APIs, and JWT authentication. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and DBMS.

EDUCATION

Bachelor of Engineering in Computer Engineering (CGPA: 8.3/10) 2023 – 2027
Pune Institute of Computer Technology (PICT)

EXPERIENCE

Full Stack Web Developer Intern June 2026 – September 2026
Udaan Scholars (Remote)

- Contributed to the development of a **production web platform**, building and enhancing full-stack features across the React.js frontend, Node.js/Express.js backend, and MongoDB database.
- Built a **full-featured Admin CMS** for managing colleges, programmes, courses, blogs, FAQs, scholarships, partners, testimonials, and dynamic website content.
- Developed **lead, admissions, and counselling management modules** with search, filtering, workflow management, and administrative dashboards.
- Designed and implemented **RESTful APIs** using Node.js and Express.js, and integrated **Cloudinary** for media upload and management.
- Implemented **Meta Pixel and Conversions API (CAPI)** to track user actions and improve website analytics.
- Improved website **SEO** by implementing dynamic metadata, canonical URLs, sitemap generation, and structured data.

PROJECTS

Vidly – Movie Rental Management System (React, Node.js, Express, MongoDB)
Live Demo — GitHub

- Developed a full-stack movie rental platform with React frontend, Node.js/Express backend, MongoDB, and JWT-based authentication.
- Built 20+ RESTful APIs for movies, genres, customers, rentals, watchlists, and returns, with rental lifecycle workflows for stock tracking, returns, and fee calculation.

ExamEdge – Secure Online Examination Platform (React, Node.js, Express, MongoDB)

- Developed a full-stack online examination platform using React.js, Node.js, Express.js, and MongoDB with JWT authentication, role-based access control, and anti-cheating features.
- Developed RESTful APIs and responsive dashboards for exam management, question handling, submissions, result processing, and performance visualization.

SKILLS

Languages: C++, Python, JavaScript, TypeScript
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Tools: Git, GitHub, Postman, Cloudinary
Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS
